## RSA Acoustics merges with Heggies

Heggies Pty Ltd (Heggies) is proud to announce the recent completion of the merger of RSA Acoustics to its Sydney operations.

RSA Acoustics commenced operating in 1989 and has been providing acoustic consultancy services to industrial, commercial and residential clients for 20 years. RSA Acoustics' founder, Rodney Stevens, has been an acoustic practitioner for over 30 years, commencing the early part of his career with the NSW State Pollution Control Commission (now NSW DECC). Rodney is a member of the Australian Acoustical Society (AAS) and is the Treasurer for the NSW Divisional Committee. Rodney and his team moved into Heggies' Sydney Office immediately post-acquisition, working closely with all three of Heggies Sydney based Noise and Vibration Division Managers.

This is the third such business integration that Heggies has completed in recent years having acquired Eric Taylor Acoustics in Canberra in 2005 and Graeme E. Harding & Associates in Melbourne in 2006.

Heggies has been operating since 1978. Heggies is a progressive firm of consulting engineers and scientists providing specialist solutions for improving and sustaining our environment. With over 130 staff members, Heggies is one of Australia's largest specialist environmental consultancies operating from offices in Sydney, Brisbane, Canberra, Melbourne, Newcastle, Singapore, Perth, Townsville and Wollongong. Projects are undertaken in all states of Australia, as well as in New Zealand, South East Asia and the Middle East.
